

Schedule

A week-by-week breakdown of the material.

Week 1 (01/11-1/15)

Day 1 Introduction

Day 2 Complex Numbers, algebra¹

Day 3 Geometry of the Complex Plane²

Week 2 (01/18-01/22)

Day 1 Sequences and Series in the Complex Plane³

Day 2 Cauchy sequences⁴

Day 3 Cauchy sequences⁵

Week 3 (01/25-01/29)

Day 1 Series results from Calc 3⁶

Day 2 Series results from Calc 3⁷

Day 3 Series results from Calc 3⁸

Week 4 (02/01-02/05)

Day 1 Series results from Calc 3⁹

Assignment 1¹⁰ due Friday, February 12

Day 2 Topology of the Complex Plane¹¹

Day 3 Continuous functions

¹notes/complex_numbers.html

²notes/complex_numbers.html

³notes/complex_series.html

⁴notes/complex_series.html

⁵notes/complex_series.html

⁶notes/complex_series.html

⁷notes/complex_series.html

⁸notes/complex_series.html

⁹notes/complex_series.html

¹⁰<notes/assignment1.html>

¹¹notes/complex_topology.html

Week 5 (02/08-02/12)

Day 1 Analytic Polynomials

Day 2 Differentiable Functions

Day 3 Power Series

Week 6 (02/15-02/19)

Day 1 Midterm 1

Day 2 Differentiability of Power Series

Day 3 Cauchy-Riemann Equations, Analytic functions

Week 7 (02/22-02/26)

Day 1 Extensions of standard functions

Day 2 Line Integrals

Day 3 Line Integrals, cont

Week 8 (03/07-03/11)

Day 1 Line Integrals and antiderivatives

Day 2 Closed Curve Theorem

Day 3 Cauchy Integral Formula

Week 9 (03/14-03/18)

Day 1 Taylor Expansion for entire functions

Day 2 Louisville Theorem, Fundamental Theorem of Algebra

Day 3 Power Series for analytic functions on a disc

Week 10 (03/21-03/25)

Day 1 Mean Value Theorem

Day 2 Midterm 2

Day 3 Maximum Modulus Theorem

Week 11 (03/28-04/01)

Day 1 Schwartz's Lemma

Day 2 Morera's Theorem

Day 3 TBA

Week 12 (04/04-04/08)

Day 1 TBA

Day 2 TBA

Day 3 TBA

Week 13 (04/11-04/15)

Day 1 TBA

Day 2 TBA

Day 3 TBA
